Overview

Six Sigma Black Belt (SSBB) certification focuses on testing students on their comprehensive understanding of the various Six Sigma tools and techniques. The objective of the online value added course (complementary with certification exam) is to develop a comprehensive knowledge base that helps students to function effectively as a Six Sigma Black Belt in various projects. The tools and techniques cover both quantitative and non-quantitative analysis

along with other necessary knowledge to improve the production process and minimize defects in the end product with a greater focus on the practical implementation of these tool and techniques in the organization.

This course focuses on enabling the student not only to be able to relate Six Sigma concepts to the overall business mission and objectives but also be able to define, present and manage six sigma projects

Certification

Applicants will be awarded the Six Sigma Black Belt (SSBB) certificate by 6Sigmastudy upon successfully passing the certification exam, which is a 3 hour online multiple choice exam. Exams are administered by 6Sigmastudy and Need to schedule the exam in advance using the membership account or taken at a time convenient to you. The cost of exam is included in the course fee (2 free re-takes included)
